but could hear nothing of it.
With regard to your enquiries
about Telegraphs here, I am sorry
to say I can find out nothing about
the Fujini business. I don't however
think it has yet come to anything
or people would know something
of it.

. If you can make sure of your
commissions on the goods you pro-
pose being agent for at the exhibition

Corooba,
March 12. 1870-

Dear Preuenfeld,

I recd your note a day
or two ago with much pleasure.

I inquired for you when in Rosario
but could hear nothing of you.

With regard to your enquiries
about Telegraphs here, I am sorry
to say I can find out nothing about
the Fujin business. I don't however
think it has yet come to anything
or people would know something
of it.

If you can make sure of your
commissions on the goods you pro-
pose being agent for at the exhibition

Here, I dare say you would prefer
living here to pulling wires as
you say.

I know nothing about the
exhibition either, except that a
few days ago some gardeners & an
engineer arrived "to begin the work".
I believe some sort of a wooden
edifice is ordered in the U. States, &
Dr. Gonzalez, one of the Commission,
told me he expected it would be
open by the 1st Oct^r.

If you can make a pasco.
here for a few days you might
obtain more information than I
can. I know & see hardly anybody.

It appears our old friend
Lopez is dead - & that he died

bravely-

Hoping to see you before long
I remain, dear Treuenfeldt

Yours very truly
George Thompson
